Fiskars' third quarter 2012: Solid performance, driven by the Americas

Third quarter 2012 in brief:

- Net sales increased by 2% to EUR 168.0 million (Q3 2011: 165.3)
- At comparable currency rates, net sales decreased by 4%
- Operating profit (EBIT) was EUR 14.0 million (6.8)
- Operating profit (EBIT) excluding non-recurring items increased by 1% to EUR 13.2 million (13.1)
- Earnings per share were EUR 0.22 (0.17)
- Cash flow from operating activities was EUR 23.5 million (25.3)
- Outlook for 2012 unchanged: full-year net sales and operating profit excl. non-recurring items are expected to be at 2011 levels

Fiskars President and CEO, Kari Kauniskangas:

"Fiskars' business continues to develop steadily despite challenging market conditions, particularly in Europe. Our American businesses showed their strength, and we continued to increase operational efficiency in EMEA. This enabled us to deliver a solid operating profit while the costs related to our five-year platform investment program in EMEA increased as anticipated. The program progressed according to plan.

Our key international brands perform well even during turbulent economic conditions and function as our engine of growth when entering new categories and markets. During the third quarter this could be seen in the promising commercial launch by our crafting business and in the headway made by the Outdoor business in building a strong international distribution network for Gerber's growth.

Further erosion of consumer or trade confidence could negatively impact sales in the holiday season, which is especially important for our Home products. It is also good to remember that during the last two winters the demand for snow tools has been exceptionally high."

FISKARS' INTERIM REPORT, JANUARY - SEPTEMBER 2012

GROUP PERFORMANCE

Operating environment in Q3 2012

The overall economic climate continued to affect Fiskars' customers and consumers in Europe and market conditions remained challenging, especially in Southern Europe. Even though the situation in some markets was stable, the steady stream of worrying financial news impacted consumer behavior and spending was value-driven. The trade remained cautious, keeping tight control on inventory levels.

In the Americas, consumer sentiment improved amid a string of encouraging signs from the economy. Retail spending increased compared both to the previous quarter and the previous year. However, retailers were still monitoring their inventories carefully, and some garden retailers were still working down inventories from the season.

Net sales and operating profit

In the third quarter of 2012 Fiskars' consolidated net sales increased 2% and amounted to EUR 168.0 million (Q3 2011: EUR 165.3 million). Using comparable exchange rates, sales decreased by 4%. Sales in Europe decreased mainly because Garden sales did not reach the previous year's levels. Sales in the Americas increased, boosted by good development in the Garden and School, Office and Craft businesses, and with the strengthening of the US dollar further increasing sales reported in euro.

In the first nine months of 2012, Fiskars' net sales amounted to EUR 557.5 million (Q1-Q3 2011: EUR 555.2 million). Using comparable exchange rates, and excluding Silva in Q1-Q3 2011, comparable net sales decreased by 1%.

Net sales for EMEA (Europe, Middle East, and Asia-Pacific) between July and September totaled EUR 108.0 million (Q3 2011: 113.7). Net sales for the Americas totaled EUR 60.7 million (52.0).

In January - September, net sales for EMEA amounted to EUR 369.0 million (Q1-Q3 2011: 385.2) and net sales were EUR 191.9 million (175.6) for the Americas.

Operating profit (EBIT), EUR million	Q3 2012	Q3 2011	Change	Q1-Q3 2012	Q1-Q3 2011	Change	2011
Group	14.0	6.8	106%	50.8	42.1	21%	52.8

Other	-3.0	-2.3	28%	-9.8	-7.1	39%	-11.4

In the third quarter, the Group's operating profit excluding non-recurring items increased by 1% to EUR 13.2 million (Q3 2011: 13.1), boosted by good development in the Americas. During the reporting period the group recorded non-recurring income of EUR 0.8 million from the release of a provision related to the divestment of Silva, which took place in 2011. In Q3 2011, the group recorded a EUR 5.3 million non-recurring loss in EMEA related to the sale of Silva and a EUR 1.1 million non-recurring cost in the Americas related to a product recall.

Operational efficiency continued to improve in EMEA. Nonetheless, operating profit excluding non-recurring items for the period decreased 18% to EUR 8.1 million (9.9), mainly because the cost impact of the company's five-year platform investment program in EMEA was, as anticipated, higher than in 2011. Operating profit excluding non-recurring items for the Americas increased by 45% in the third quarter and amounted to EUR 8.0 million (5.5), driven by good sales development in the Garden and SOC businesses.

In January - September, the Group's operating profit excluding non-recurring items increased by 3% to EUR 50.0 million (Q1-Q3 2011: 48.4). EMEA recorded an operating profit of EUR 31.0 million for the period (30.7),

an increase of 1% excluding non-recurring items. Operating profit for the Americas increased by 16% excluding non-recurring items in 2011, amounting to EUR 28.9 million (24.8).

Financial items and net result

Fiskars' share of profit from its associated company, Wärtsilä, during the third quarter was EUR 9.8 million (7.5), and EUR 28.1 million (29.3) in January - September. The change in the fair value of standing timber was EUR 0.7 million (-0.1) in July – September and EUR 1.0 million (-0.9) in January – September.

Third-quarter net financial items totaled EUR -1.6 million (0.6, including gains of EUR 2.9 million related to the fair value of currency derivatives). Profit before taxes was EUR 22.8 million (14.8). Earnings per share were EUR 0.22 (0.17).

During the first nine months, net financial costs totaled EUR -3.5 million (-2.0) and profit before taxes was EUR 163.4 million (138.3). In Q2 2012 Fiskars recorded a profit of EUR 87.0 from the sale of part of its shareholding in Wärtsilä (EUR 69.8 million in 2011). Earnings per share were EUR 1.79 (1.58) during the first nine months, of which 1.06 related to the sale of Wärtsilä shares in Q2 2012 (0.85 in Q2 2011).

Cash flow, balance sheet, and financing

Third-quarter cash flow from operating activities was EUR 23.5 million (25.3), and it was positively affected by a EUR 5.4 million tax withholding on extra dividends. Cash flow from investing activities was EUR -8.9 million (0.9). Cash flow from financing activities was EUR -22.5 million (-26.5) in the third quarter, including EUR -61.4 million (0) of extra dividends paid, offset by a change in interest-bearing receivables of EUR 62.1 (0.7) million. In July 2011, Fiskars' wholly owned subsidiary, Avlis AB, divested its subsidiary Silva Sweden AB. The sale had a positive impact on cash flow from investment activities of approximately EUR 5.0 million during the third quarter of 2011.

In January – September, cash flow from operating activities was EUR 56.4 million (65.5), which included the first-quarter dividends paid by the associated company, Wärtsilä, totaling EUR 26.8 million (40.9) and a positive effect of EUR 5.4 million from tax withholding on Fiskars extra dividends during the third quarter. Cash flow from investing activities was EUR 106.1 million (100.6) during the first nine months, including proceeds from the sale of Wärtsilä shares totaling EUR 126.4 million (109.7). Cash flow from financing activities in January – September 2012 was EUR -164.0 million (-167.0).

Capital expenditure totaled EUR 8.8 million (4.6) in the third quarter. The investments were mainly related to the five-year platform investment program in EMEA, and the company also invested in new product development. Capital expenditure in January – September totaled EUR 21.2 million (14.9).

Depreciation was EUR 5.0 million (5.2) in the third quarter and EUR 16.0 million (16.0) in January – September.

Fiskars' working capital totaled EUR 96.4 million (111.6) at the end of September. The equity ratio increased to 64% (57%) and net gearing was 17% (36%).

Cash and cash equivalents at the end of the period totaled EUR 4.8 million (4.7). Net interest-bearing debt amounted to EUR 100.2 million (186.1). The decrease in net interest-bearing debt is mainly attributable to a decrease of EUR 82.3 million in short-term borrowing. Short-term borrowing totaled EUR 34.3 million (116.7) and long-term borrowing EUR 71.8 million (74.7) at the end of the period. Short-term borrowing mainly consists of commercial paper issued by Fiskars Corporation. In addition, Fiskars had EUR 455 million (455) in unused, committed long-term credit facilities with Nordic banks.

Research and development

The Group's research and development expenditures totaled EUR 1.9 million (1.7) in the third quarter, corresponding to 1.1% (1.0%) of net sales. In January – September, research and development expenditures totaled EUR 5.5 million (6.2), equivalent to 1.0% (1.1%) of net sales. The decrease was due to the divestment of the Silva business in 2011.

Personnel

The Group employed an average of 3,371 (3,463) full-time equivalent employees (FTEs) in the third quarter, of which 2,595 (2,719) are in EMEA, 558 (556) in the Americas, and 218 (188) in Other.

Net sales in EMEA decreased 5%, totaling EUR 108.0 million (113.7), as Garden sales did not reach the previous year's levels.

Net sales for Home products were at 2011 levels, with continued good development in export sales. Successful product launches boosted sales in the Dining category.

Net sales in the Garden business decreased during the quarter. Sale of snow tools did not reach the previous year's high levels and rainy weather conditions affected demand for container gardening products. Other Garden & Yard Care categories developed well.

Outdoor net sales increased, as positive momentum in Gerber's sales offset a decrease in boat sales.

Operational efficiency in EMEA continued to improve. The segment recorded an operating profit of EUR 8.1 million excluding non-recurring items (9.9 excluding EUR 5.3 million non-recurring loss related to the sale of Silva), reflecting the increase in costs related to the five-year platform investment program in EMEA.

The Garden business performed strongly, with positive development across key accounts. Overall, growth was led by wood preparation.

Net sales for school, office and craft (SOC) products continued on a good track, boosted by a successful entry into a new category and good back-to-school sales to key accounts.

Outdoor sales lagged behind 2011 levels due to a decrease in sales to institutional channels. Sales in commercial channels developed positively.

The segment's operating profit was EUR 8.0 million (5.5, excluding a EUR 1.1 million non-recurring cost related to a Garden product recall), boosted by an increase in volumes and the sales mix in the Garden and SOC businesses.

Risks and business uncertainties

Fiskars Corporation has detailed its overall business risks and risk management in its Annual Report for 2011 and on the company web site. The company does not consider any material changes to have taken place during the reporting period concerning the risks and market uncertainties presented in the Annual Report for 2011.

Changes in management and organization

Fiskars Group's new Chief Financial Officer and member of the Executive Board, Ilkka Pitkänen, assumed his position at the beginning of September 2012, reporting to Fiskars' President and CEO, Kari Kauniskangas.

Fiskars' new sales organization for the EMEA region became effective on September 1, 2012. The new sales organization consists of two new sales regions, North and Central. Jakob Hägerström was appointed President, Sales Region North and Axel Goss was appointed President, Sales Region Central. Both report to Fiskars' President and CEO Kari Kauniskangas.

Outlook for 2012

Fiskars' operating environment remained uncertain during the third quarter, and further economic and financial uncertainty could affect consumer and trade behavior adversely. Changes in demand, for Home products in particular, during the last quarter could affect the full-year results. In the Garden business, demand for snow tools has been exceptionally high over the last two winters.

Fiskars will continue implementing its integrated company strategy and the platform investment program in EMEA. The company will also continue investments in new product development and marketing in order to improve its product offerings and competitive position.

We expect full-year 2012 net sales and operating profit excluding non-recurring items to be at 2011 levels.

The associated company, Wärtsilä, will continue to have a major impact on Fiskars' profit and cash flow in 2012.

NOTES TO THE INTERIM FINANCIAL STATEMENTS**ACCOUNTING PRINCIPLES**

This interim financial statement bulletin is prepared in accordance with IAS 34 (Interim Financial Reporting) using the same accounting policies and methods of computation as in the previous annual financial statements. All figures in the accounts have been rounded and consequently the sum of individual figures can deviate from the presented sum figure.

The Group has implemented new or amended IAS/IFRS standards and interpretations mandatory as of January 1, 2012. Of these the most important are:

- Amendments to IFRS 7 Financial Instruments: Disclosures
- Amendments to IAS 12 Income Taxes

The adoption of the standards above had no impact on the reported results or financial position.

Use of estimates:

The preparation of the financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the valuation of the reported assets and liabilities and other information, such as contingent liabilities and the recognition of income and expenses in the income statement. Although the estimates are based on the management's best knowledge of current events and actions, actual results may differ from the estimates.

EXCHANGE RATE SENSITIVITY OF THE OPERATIONS

Approximately 10% of Fiskars' commercial cash flows are exposed to fluctuations in foreign exchange rates. The most significant risks relate to the depreciation of SEK, NOK and CAD against USD and EUR. Foreign exchange risks are hedged primarily through the use of currency forwards and swaps. Change in valuation of currency derivatives is included in the income statement without applying hedge accounting.

RELATED PARTY TRANSACTIONS

The dividend from Wärtsilä EUR 26.8 million is reported as Dividends from associate in the Consolidated Statement of Cash Flows. The dividend was received during the first quarter of 2012.

ACQUISITIONS AND DIVESTMENTS**Sale of part of Wärtsilä shares**

On April 24, 2012, Fiskars Group agreed with Investor AB to join interests to create a strong long-term owner for Wärtsilä. The legal merging of Fiskars Group's and Investor AB's interests will take place in due course, but the parties will act in concert concerning the Wärtsilä ownership as of the said date.

As part of the agreement, Fiskars' subsidiary Avlis AB sold 2.08 percent of the shares in Wärtsilä to Investor at a price of EUR 30.90 per Wärtsilä share, totaling approximately EUR 126.8 million. Fiskars holding in Wärtsilä now amounts to 13.0% of the shares and votes (15.1). At the end of September 2012, Fiskars Group and Investor AB together owned 42,948,325 shares or 21.77% of Wärtsilä's share capital and votes. Wärtsilä will continue to form one of Fiskars' reported operating segments and to be treated as an associated company, as Fiskars considers that it continues to have a significant influence in Wärtsilä.

There have been no acquisitions in the reporting period.

The following acquisitions and divestments in 2011 have an impact on the comparability of the figures:

Fiskars Group recorded a profit of approximately EUR 69.8 million from the sale.
